Metric Spaces: Including Fixed Point Theory and Set-Valued Maps

By Qamrul Hasan Ansari

Alpha Science International Ltd. Hardback. Book Condition: new. BRAND NEW, Metric Spaces: Including Fixed Point Theory and Set-Valued Maps, Qamrul Hasan Ansari, "Metric Spaces" is intended for undergraduate students offering a course of metric spaces and post graduate students offering a course of nonlinear analysis or fixed point theory. The first six chapters cover basic concepts of metric spaces, separable spaces, compact spaces, connected spaces and continuity of functions defined on a metric space. Chapter seven is devoted to the metric fixed point theory. Banach contraction theorem and several of its generalizations along with their applications and Caristi's fixed point theorem are also given in this chapter. The introductory set-valued analysis with special emphasis on continuity and fixed point theory of set-valued maps is given in chapter eight. One of the most useful and important results from nonlinear analysis is Ekeland's variational principle. This principle along with several of its equivalent forms, Takahashi's minimization theorem, introduction of theory of equilibrium problems and the equilibrium version of Ekeland's variational principle and several of its equivalent forms are presented in the last chapter. This book will also be useful for researchers working in nonlinear analysis, optimization and theory of equilibrium problems.

Reviews

An incredibly awesome publication with perfect and lucid reasons. It can be written in simple phrases and not confusing. I am just delighted to let you know that this is actually the very best publication I actually have study during my very own lifestyle and could be the best publication for actually.

-- **Paula Gutkowski**

Complete guide! Its such a good go through. It is really fascinating through reading period of time. Its been written in an extremely basic way and is particularly only after I finished reading through this publication through which really changed me, change the way I really believe.
