Are You Positive (Paperback)

By Stephen Davis

Virtualbookworm.com Publishing, United States, 2008.
 Paperback. Book Condition: New. 226 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Tyree Johnson stands accused of first-degree murder in a South Carolina courtroom. His crime? Making love to his girlfriend after he had been diagnosed HIV-Positive. The defense, however, claims there is reasonable doubt that Tyree's diagnosis was wrong-that, according to numerous scientific studies, these so-called HIV tests are fraught with errors, and have been ever since their inventor, Dr. Robert Gallo, lied on his patent application. Furthermore, Tyree's lawyer argues that there is no scientific evidence that HIV is transmitted by heterosexual intercourse, and that Tyree's girlfriend died from taking lethal anti-retroviral drugs rather than from any HIV/AIDS illness. Ripped from the headlines of today's newspapers, Are You Positive? Raises serious questions about whether anyone has ever been properly diagnosed as HIV-positive, and whether most people today are dying from the HIV medications prescribed by their doctors.

Reviews

The book is fantastic and great. It normally will not cost an excessive amount of. I am just easily could possibly get a satisfaction of reading a published ebook.

-- **Edgar Witting**

I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
