Reviews

This is actually the finest ebook we have go through until now. It is writter in straightforward words and phrases instead of difficult to understand. Its been designed in an remarkably straightforward way and is particularly just following i finished reading through this book by which basically changed me, change the way in my opinion.
(Gillian Wisoky)

BENEATH (ORIGINS EDITION)

Breakneck Media. Paperback. Book Condition: New. Paperback. 332 pages. Dimensions: 9.0in. x 6.0in. x 1.0in. ORIGINS EDITION: This revised, expanded and re-edited edition of Beneath addresses the flaws exposed by reader reviews--flaws that have now been eradicated. This fresh version of the book is now cleaner and also clears up some of the confusion readers felt about the strange behavior of certain characters. DESCRIPTION: When evidence of microscopic life on Europa--Jupiters sixth moon--is discovered, a crew of astronauts and scientists embark on a mission to discover its source. Led by oceanographer and biologist, Kathy Connelly, the crew is charged with the task of melting through miles of ice to the hidden ocean beneath, where the search for alien microorganisms begins. But a startling discovery awaits them on the surface of Europa--life. Vast fields of red, plant-like organisms fill the cracks crisscrossing the moons surface, surviving on nutrients welling up from the waters below. Encouraged by the discovery of life on the surface, Connelly and her crew activate the Thermal Exploratory System and melt through the ice toward a world that does not want to be found, toward an intelligence that will do anything to make sure they never leave. BENEATH takes all of the action, thrills, imagination and strange creatures that Jeremy Robinson is known for and puts them in the most extreme environment imaginable: the surface, and sub-ice ocean of a moon four hundred million miles away from Earth. PRAISE FOR BENEATH: Heres a near-future space adventure thats as frightening as it is smart. Jeremy Robinsons BENEATH is packed with believable tech, a page-turning story and an alien intelligence so creepy, youll pray NASA never makes it past the moon. --J. C. Hutchins, author of PERSONAL EFFECTS: DARK ART and 7th SON: DESCENT Jeremy Robinson hits his stride in BENEATH. His...
