Moving well beyond the standard review of ethical issues and basic ethical problem solving, this highly engaging text for counseling professionals offers activity-based learning that is grounded in critical, philosophical thinking and clinical integrity. The text is unique in its provision of innovative, experiential activities and case studies that promote in-depth thinking about the ethical and moral and legal issues often confronted by counseling professionals. It presents ethical practice from a positive, proactive point of view rather than from a reactive or fear-based stance, and provides a solid foundation in ethical decision-making, critical thinking, and best practices that will enable counseling professionals to confidently navigate the maze of ethical codes and standards of care while confidently practicing in a consistently ethical manner. The accompanying Instructor s Manual offers professors step-by-step instructions on how to facilitate the activities and case study discussions, as well as a sample syllabus, additional readings, and relevant web sites.
