

## Pro Data Visualization using R and JavaScript

---

By Tom Barker

Apress. Paperback. Book Condition: New. This item is printed on demand. Paperback. 216 pages. Pro Data Visualization using R and JavaScript makes the R language approachable, and promotes the idea of data gathering and analysis. You'll see how to use R to interrogate and analyze your data, and then use the D3 JavaScript library to format and display that data in an elegant, informative, and interactive way. You will learn how to gather data effectively, and also how to understand the philosophy and implementation of each type of chart, so as to be able to represent the results visually. With the popularity of the R language, the art and practice of creating data visualizations is no longer the preserve of mathematicians, statisticians, or cartographers. As technology leaders, we can gather metrics around what we do and use data visualizations to communicate that information. Pro Data Visualization using R and JavaScript combines the power of the R language with the simplicity and familiarity of JavaScript to display clear and informative data visualizations. Gathering and analyzing empirical data is the key to truly understanding anything. We can track operational metrics to quantify the health of our products in production. We can track quality...

### Reviews

*This publication is amazing. This can be for all who state that there had not been a worth reading through. I realized this publication from my i and dad encouraged this ebook to find out.*

-- **Desmond Schuster II**

*It is one of my personal favorite book. It is one of the most incredible ebook i have got go through. You will not feel monotony at any moment of your own time (that's what catalogues are for relating to if you ask me).*

-- **Giuseppe Mills**
