Blurb, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Among the popular non-fiction physics books currently available, few are as disruptively insightful as TransThink, Life and Spacetime For the Rest of Us; it s mainstream science astoundingly applied to Main Street . This book has the potential to exponentially expand the current relatively small popular physics readership. In the footsteps of authors Kaku, Greene, and Smolin, this fresh and holistic but scientific book is designed to tickle the brain neurons of both the tech-savvy and the novice. Formatted and poised for print or eBook publication, TransThink encompasses life, physics, philosophy, and the human species, in a maximum-impact-per-square-page voyage of 50,000 words. Mankind s trajectory in today s frantic technology race is explored, from pornography to quantum theory, in a humorous yet profound excursion. Esoteric is a dirty word in this book, and assuming the reader made it through 8th grade math, the secrets of the Universe can be comfortably grasped. Spanning the soft and hard sciences, crisscrossing interdisciplinary topics, and maintaining a firm foothold in proven science, are the hallmarks of this literary work.
